

Patriots and Vanguard of Nigeria

To all Trueborn Nigerians

This is a clarion call to all patriotic Nigerians, to rise in salvation of our fatherland. For too long have we stood idle-by, while socio-political brigands, by means of amoral politics, subvert the people's electoral franchise, steal our mandate, squander our opportunities, and spend stolen public funds in riotous living and prodigality, with impunity, and make us the mock of Nations.

For too long, has corruption been tolerated in government - now it factually constitutes our national character, and factor of our stigmatization in Diaspora. The socio-economic consequences of corruption has made most of us flee our fatherland; absolutely bereft of conscientious rationalization, as the fight for survival by any means, now has the better of us – we find the trueborn of Nigeria in nefarious activities all over the world, just to survive.

Not only has the proceeds of corruption and bad governance fed the greed and avarice of the political bandits, adorned in State apparels, but the recent development; 1st October Bombing, has demonstrated their determination to thwart the stride of hope and diligence, and leave our generation in hopelessness and despondency - after squandering their era; the first 50yrs of our independence.

The time has come, to **arise, oh compatriots**, and obey the call of our fatherland, Nigeria. For too long have we been passive and unconcerned about the upheavals that bedevil our country, the only place we can truly call home. This call is for all those who still have an iota of patriotism and love for Nigeria and the courage to make an input to effect change in our lifetime. Upon securing the relevant clearances, all Nigerians in South Africa, will on the 3rd of Nov 2010, converge at the field in the Union Building, Pretoria, and march together and deliver a Communiqué at the Nigerian High Commission.

In 4 months, all the Refineries in Nigeria are working fully, no more fuel scarcity, the Nigerian airspace for the first time; fully covered by radar and protected, the Justice Uwais proposed Constitution was submitted unedited, and we now have a new Constitution. What magic has President Goodluck Ebele Azikiwe Jonathan done in Four months that past leaders have failed to do in years of governance?

Signed: PVN
